

# PERMANENT EYELINER HEALING STAGES

## DAY 1

Eyes will have moderate swelling and redness.

## DAY 2

Eyes may still have slight swelling.

## DAY 3

Swelling will decrease with a "tight" feeling and pigment may begin to lift away from the skin. Do not pick.

## DAY 4

Eyes may have a "pinching" feeling. Itchiness will begin to occur as skin begins to flake.

## DAY 5

Color will be grayish and may take a few days to reach full color.

# PERMANENT MAKEUP EYELINER AFTERCARE TIPS

Use ice packs to reduce swelling as needed.

Use Hustle Butter (HB) Permanent Makeup aftercare balm, the next morning after your procedure two times a day for 5-7 days.

Do not use any lash growth serums for two weeks after the procedure or until you've completely healed.

Take Ibuprofen as needed to help with pain and swelling.
